

Appl. No. 10/676,997  
Amdt. Dated October 24, 2005  
Response to Restriction Requirement of June 23, 2005

**REMARKS**

The examiner found that a restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11 drawn to a method for bending a perimeter light; and
- II. Claims 12-40, drawn to a bent elongated perimeter light and a system for mounting perimeter lights to a body having straight and curved surfaces.

Applicants do not agree with the examiner's findings, but to provide a complete response elect claims 12-40 to be examined. Claims 1-11 have been withdrawn and applicants reserve the right to pursue these claims in a divisional or continuation application.

Applicant respectfully requests that a timely notice of allowance be issued in this case.

Respectfully submitted,

October 24, 2005
